Name: Vivek Gupta
Email: vivek.gupta@email.com
Phone: +91 1098765432

Objective:
Cloud Engineer with expertise in AWS, DevOps, and cloud security. Seeking a role in cloud infrastructure management and automation.

Education:

- M.Tech in Cloud Computing, Amity University (2021-2023)

Skills:

- Cloud Platforms: AWS, Google Cloud, Azure
- DevOps: Terraform, Docker, Kubernetes, CI/CD
- Security: IAM, Network Security, Compliance

Projects:

- **Scalable Microservices Architecture:** Built and deployed microservices using AWS ECS and Lambda.
- **Infrastructure as Code:** Automated cloud deployments with Terraform and Ansible.
- **Cloud Security Monitoring:** Implemented a real-time security monitoring dashboard.

Certifications:

- AWS Certified Solutions Architect
- Google Cloud Professional Engineer

Internship Experience:

- **Cloud Engineer Intern at Microsoft (2023)**
    - Managed Kubernetes clusters, optimizing resource allocation.
    - Automated cloud provisioning, reducing manual work by 60%.

Achievements:

- Won "Best Cloud Automation Project" at CloudCon 2023.
- Published an article on "Serverless Computing Trends" in Cloud Tech Journal.
